

Eshanya Trade Links × Luftung UPVC — 15-Page Research Dossier v2 (Deep)

Date: 03-09-2026 | **Tenant:** eshanya_trade_links | **Prod DB:** jqjxhhgfwdzckijnede | **Raw:**

docs/raw_data_2026-09-03/ **Scope:** Deep public-footprint audit — IndiaMART sri-taksh-enterprises 7 products scraped, Luftung partnership 5 proofs, DB row, Vitharn landing. [V] fetched 03-09-2026; [I] buyer language; [U] needs confirm. No hidden text.

Page 1 — Executive — Why footprint is thin but trust is strong

[V] Tenant live: eshanya_trade_links , final , trial 09-09-2026 , isPaid=false , ETL , navy #0B2D5C / gold #D99A2B , hero-scroll.mp4 7561203 = Architectural_video_for_luxury_w._202609022136.mp4 (h264 1920×1080 8s). Public assets live, hero 420vh pinned Blob scrub with load-ring matches pusalaIaxmi41-ctrl/eshanya-trade-links exactly (now restored).

[V] Public footprint is **not 15 pages** — that is why v1 felt filler. Verified specific pages: IndiaMART sri-taksh-enterprises (profile + 3 catalog pages = 7 products), 5 Luftung authorised-partner posts, Vitharn NAP, 9 company images — about 4 pages of specific data. The other 11 pages in v1 were buyer-language education (intentionally marked [I]). Deep scrape now adds 3 catalog pages with specs/prices, so **v2 has 7 pages specific + 8 pages education = 15**.

Recommendation: Do not hide 15 pages. Keep 7 specific product pages visible as Product cards + tables, 8 education pages as visible FAQ/bands + LocalBusiness + FAQPage JSON-LD.

UPVC Door Profile	Ask Price	—	3 Chamber, Sliding, 2.3mm, Coated, Mahogany, 4mm glass, GI Steel, Up to 25 dB	Door Frame			

Visible: 2 cards + 25-35 dB + Termite Proof bullets.

Page 8 — Buyer Pains → FAQ Bank (8 verbatim)

[I] Rain leakage corner, dust/noise road, heat 44°C glass hot, mesh torn, handle loose, measurement gap, silicone ugly, quotation confusion per sft vs per window + glass/mesh/transport/GST extra, delay no update, labour no power/water. These become 10 FAQs (you have 4, add 6).

Page 9 — Buyer Desires (promise language)

[I] Quiet road, dust zero next morning, rain no leak, glass cool at 2pm, one-finger slide, mesh pigeon-proof, handle one-turn lock, size correct wall not chipped, bill one line per sft + glass + mesh + GST, 15–25 day fitting, one person to call.

Page 10 — Process 8 Steps (visible timeline)

[V] Original: Consultation → Site Visit → Measurement → Design → Quotation → Supply → Installation → Support . Add days: 0 advance, 2 measurement, 5 design lock, 20 supply, 22 install, 23 clean, 30 tape deadline + client scope level masonry, free power/water .

Page 11 — Technical Edu (400 words, generic, safe)

Chambers + gasket = noise/dust/rain; 5mm clear standard (your term) vs toughened/laminated/double-glazed; 2-track vs 3-track; mesh SS 304 vs fibre; silicone 7–10mm wall-to-frame; maintenance wipe.

Page 12 — Commercial Clarity (publish table)

[V] Prices from scrapes: ₹135/Kg vs ₹300/Kg (Golden oak +122%). Convert to per sft for site: show both per Kg (profile) and per sft (installed) — do not mix. Example W1500×H1500 = 24.35sft × 390 is from KPR, not Eshanya — keep Eshanya example as 100 Kg @135 = ₹13,500 + fitting.

[U] Confirm installed per sft card — IndiaMART is per Kg.

Page 13 — Local SEO (how to beat IndiaMART)

[V] IndiaMART ranks on sri-taksh-enterprises slug + domain authority. Win brand SERP with GBP + app.vitharn.com/eshanya-trade-links + NAP 28 KV Nagar ... 9655091414 , same 9 IndiaMART photos, LocalBusiness + Product JSON-LD with ₹135/Kg offers.

Page 14 — Unknowns to Confirm

1. GSTIN full, 2-4 bank, 5 Luftung series, 6-7 real photos, 8 warranty, 9 hours, 10 primary phone (9655091414 vs 7949303849 vs 70100 74924 vs 63819 60878).
